

Japanisch IV — Weekly Study Guide

An index, week by week. For each class session: the assigned exercises (label + page number in your Genki II book), what each one tests, and where to drill the same skill on the cram site. Plus blank lines to write your answers on as you work through the textbook.

Note: the assignments are taken from your teacher's weekly notes (Feb 18 → May 6). The textbook content itself is in your own Genki II book — this guide just tells you where to look.
